

NATO MODELLING & SIMULATION
CENTRE OF EXCELLENCE

Piazza Villorosi n.1- 00143 Rome, Italy

mscoe.director@smd.difesa.it

Director

Rome, 9/7/19

Dear Sir,

I am delighted to extend an invitation to you to the 14th NATO Computer Assisted Analyses, eXercise and eXperimentation (CA²X²) Forum organized by the NATO Modelling and Simulation Centre of Excellence in cooperation with the French Centre de Simulation pour la Formation, l'Entraînement et l'Expérimentation and hosted at École Militaire in Paris, France, taking place from 24 - 26 September 2019.

We recently changed the name of this event from "CAX" (Computer Assisted eXercise) to "CA²X²," to emphasize the analysis and experimentation components of M&S, areas that both SACT and the DCoS Capability Development have recently emphasized for M&S. While these areas have been topics in our previous editions, they now feature prominently in our program.

CA²X² Forum is an excellent opportunity to promote, discuss and share operational, technical and procedural items related to simulation-based analyses, experiments, exercises and training within NATO and Nations. The first event was held more than 13 years ago, and today the Forum is NATO's main M&S event, bringing together more than 250 personnel from NATO, NATO's Nations, and global Partner and Contact Nations.

This year's theme, the Transformational Power of Simulation, will focus on four areas:

- Education, Training and the M&S Discipline
- Innovative Concepts and Experimentation
- Exercises, Wargaming and Analysis
- M&S Industry Tools and Solutions

CA²X² Forum is an excellent opportunity to see the latest technology and trends and to promote, discuss and share operational, technical and procedural work related to simulation-based **analyses, experiments, exercises and training** within NATO and Nations.

Your participation as an attendee or presenter would be highly appreciated. Your presence would bring valuable insight to attendees, and show the significant value of the event to the international/NATO community.

NATO M&S COE Director

COL (ITA A) Michele TURI
